INFORMATION LETTER

Antennas Design and Measurement International Conference (ADMInC'21) will be held on November 24-26, 2021 in Saint Petersburg Electrotechnical University «LETI» (ETU «LETI») with the participation of IEEE Russia North-West Section. The conference aims to provide a platform sharing findings and new ideas, and discuss problems as well as to provide an effective networking platform for researchers in the field of antenna technology, electromagnetics, antenna measurements and wave propagation. Along with the All-Russian Conference on Antennas and Propagation 2021 (in Russian) the ADMInC'2021 will be held as the part the programme of the Saint Petersburg Antennas Week 2021. Russian and English are the official languages of the conference.

Conference proceedings will be published in electronic form and distributed on the opening day of the conference. The reports are placed in the collection of the Scientific Electronic Library e-library.ru and indexed by the bibliographic database of scientific publications of Russian scientists RSCI. It is planned to support the International Institute of Electrical and Electronic Engineers (IEEE). Based on the results of peer review, reports prepared by authors - members of IEEE will be submitted for placement in the IEEE Xplore electronic library for subsequent indexing by Scopus.
